

## Best Practice – I

1. Title of practices:

Seed Ball

2. Objectives of the practice:

- To make awareness of Environment among people.
- To make Environment Greenery.
- To prepare students for creating Seed Ball.
- To reduce soil erosion.

3. The Context:

Seed balls, also known as earth balls consist of seeds rolled within a ball of clay and other matter to assist germination. They are then thrown into hill area in order to grow plants. These seed balls which reduce the soil erosion. In hill areas we can't plant trees easily so through these seed balls, we can grow plant in this area.

4. The practices:

On 22<sup>th</sup> August 2023, students made the seed ball on the college campus. More than hundred seed balls were made. On 23<sup>th</sup>, to 6<sup>th</sup> October 2023 the seed ball was kept under sunlight for drying. In this year we kept more days for the soking of seed ball due to high rain fall these days.

On 7<sup>th</sup> October 2023, all these seed balls were thrown at Deolai Hilly sai tekdi area situated in Chhatrapati Sambhajinagar. This practice not only helps to make environmental awareness among people but also maintains balance of environment and increase the number of trees.

5. Evidence of Success:

On 7<sup>th</sup> October 2023, we took geotag of plants growing last academic year that is 2021-2022. All these evidences were stored and uploaded our college websites.

6. Problems Encountered and Resources required:

We thrown more than hundred seed balls on Sai Tekdi Deolai some of the seeds were eaten by wild animals like rabbit, peacock, hen etc. Irregular of rain stop the growth of seed balls.

## Best Practice –II

### 1. Title of practices

Environment Awareness

### 2. Objectives of the practice:

- To contribute in the development of the campus by planting trees.
- To make awareness among students and society.
- To reduce pollution by making the college campus greenery.
- To increase water capacity in the soil.

### 3. The Context:

We distributed plants at Anand and Bharat Nagar which are near to our college campus. We encourage people to grown the plants in their home premises. This activity not only helps us to birds and small insects but also help us for the food and shelter.

### 4. The practices:

The college has organized tree planting programme in the middle side of the road. in order to decreases the carbon dioxide which come from various vehicles. On the occasion of Azadi Ka Amrut Mohatsav (15<sup>th</sup> August 2022), college donated 100 plants to the students.

On behalf of our NSS unit, the college organized Rally at Anand and Bharat Nagar where we donated various plants among people and made them aware of environment.

In order to inculcate values among students the college runs the activity of “Thought of the Day” in which all teaching staff of our college write though of the day on the board as per the schedule given them.

Our college takes the care of Divyangjan students by providing them necessary facilities.

The college declared “No Vehicles Day” on every last Saturday of the month. Plastic Free Campus and Restricted Entry of Automobiles at the campus.

5. Evidence of Success:

All the geotag photos were uploaded in our college websites with all details.

We captured various photos of the above said activities and uploaded in our college website.

Thoughts of the day time table and geotag photos are stored.

Our staffs are come to college by bus here we are take the geotag photos for the same.

In the CDC meeting No Vehicles Day, Plastic Free Campus and Restricted Entry of Automobiles at the campus are declared. The circular is uploaded on the college websites scan letters are uploaded on college websites regarding the donated of the plants.

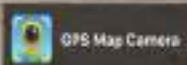

6. Problems Encountered and Resources required:

- The domestic animals destroy plants of road sides.
- Lack of awareness among people of environment.

The college planted the small plants in the front of our college
